## (C) epd-norge

## Environmental product declaration

in accordance with ISO 14025 and EN 15804+A2
weber muremørtel KKh 20/80/475 0-4 mm

The Norwegian EPD Foundation

Owner of the declaration:
Saint Gobain Denmark A/S -Weber

Product:
weber muremørtel KKh 20/80/475 0-4 mm
Declared unit:
1 kg
This declaration is based on Product Category Rules: CEN Standard EN 15804:2012 + A2:2019 serves as core PCR
NPCR 009:2018 Part B for Technical - Chemical products in the building and construction industry

## Program operator:

The Norwegian EPD Foundation
Declaration number:
NEPD-4024-3059-EN

## Registration number:

NEPD-4024-3059-EN
Issue date:
09.12.2022

Valid to:
09.12.2027
ver-170723

## EPD Software:

LCA.no EPD generator ID: 53767

## General information

## Product

weber muremørtel KKh 20/80/475 0-4 mm

## Program operator:

Post Box 5250 Majorstuen, 0303 Oslo, Norway
The Norwegian EPD Foundation
Phone: +47 23088000
web: post@epd-norge.no

## Declaration number:

NEPD-4024-3059-EN

This declaration is based on Product Category Rules:
CEN Standard EN 15804:2012+A2:2019 serves as core PCR NPCR 009:2018 Part B for Technical - Chemical products in the building and construction industry

## Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

## Declared unit:

1 kg weber muremørtel KKh 20/80/475 0-4 mm
Declared unit with option:
A1-A3,A4,A5,C1,C2,C3,C4,D

Functional unit:

General information on verification of EPD from EPD tools: Independent verification of data, other environmental information and the declaration according to ISO 14025:2010, § 8.1.3 and § 8.1.4. Verification of each EPD is made according to EPD-Norway's guidelines for verification and approval requiring that tools are i) integrated into the company's environmental management system, ii) the procedures for use of the EPD tool are approved by EPD-Norway, and iii) the process is reviewed annually by an independent third party verifier. See Appendix G of EPD-Norway's General Programme Instructions for further information on EPD tools

## Verification of EPD tool:

Independent third party verification of the EPD tool, background data and test-EPD in accordance with EPDNorway's procedures and guidelines for verification and approval of EPD tools.
Third party verifier

## Owner of the declaration:

Saint Gobain Denmark A/S -Weber
Contact person: Eirini Adamopoulou
Phone: 004542127774
e-mail: Eirini.Adamopoulou@saint-gobain.com

## Manufacturer:

Saint Gobain Denmark A/S -Weber
Silovej 3
Dk 2690 Karlslunde, Denmark

## Place of production:

Saint Gobain Weber Karlstrup, Denmark

Karlstrup, Denmark
Management system:
DS/EN ISO 14001, DS/EN ISO 9001.

Organisation no:
59983016

## Issue date:

09.12.2022

Valid to:
09.12.2027

Year of study:
2021

## Comparability:

EPD of construction products may not be comparable if they not comply with EN 15804 and seen in a building context.

## Development and verification of EPD:

The declaration is created using EPD tool lca.tools ver EPD2022.03, developed by LCA.no. The EPD tool is integrated in the company's management system, and has been approved by EPD Norway.

Developer of EPD: Eirini Adamopoulou
Reviewer of company-specific input data and EPD: Helene Løvkvist Andersen

Approved:

Managing Director of EPD-Norway

## Product

## Product description:

weber muremørtel KKh 20/80/475 0-4 mmis used for both new construction and restoration. The mortar is used both externally and internally for e.g. masonry, drafts, jointing and plastering work, as well as brick floors.
https://www.saint-gobain.dk/produkt/weber-muremoertel-kkh-2080475-0-4-mm\#
Product specification

| Materials | Value | Unit |
| :--- | :---: | :---: |
| Binders | $15-20$ | $\%$ |
| Fillers/Aggregates | $80-85$ | $\%$ |
| Additives/packaging | $0-10$ | $\%$ |

## Technical data:

Compression strength: 1 MPa
https://www.saint-gobain.dk/produkt/weber-muremoertel-kkh-2080475-0-4-mm\#

## Market:

Denmark

## Reference service life, product

The reference service life of the product is similar to the service life of the building.
Reference service life, building
60 years

## LCA: Calculation rules

Declared unit:
1 kg weber muremørtel KKh 20/80/475 0-4 mm

## Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than $1 \%$ ) are not included. These cut-off criteria do not apply for hazardous materials and substances.

## Allocation:

The allocation is made in accordance with the provisions of EN 15804. Incoming energy and water and waste production in-house is allocated equally among all products through mass allocation. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

Data quality:
Specific data for the product composition are provided by the manufacturer. The data represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on EPDs according to EN 15804 and different LCA databases. The data quality of the raw materials in A 1 is presented in the table below.

| Materials | Source | Data quality | Year |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Aggregate | ecoinvent 3.6 | Database |  |
| Binder | ecoinvent 3.6 | Database |  |

System boundary:
All processes from raw material extraction, product transport, the construction site, assembly, end of product life and beyond the system boundaries are included in the analysis.
The flow chart below illustrates the system boundaries for the full life cycle analysis.

Additional technical information:

## LCA: Scenarios and additional technical information

The following information describe the scenarios in the different modules of the EPD.

| Transport from production place to user (A4) | Capacity utilisation (incl. return) \% | Distance (km) | Fuel/Energy Consumption | Unit | Value (Liter/tonne) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Truck, 16-32 tonnes, EURO 5 (km) | 36,7\% | 50 | 0,044 | 1/tkm | 2,20 |
| Assembly (A5) | Unit | Value |  |  |  |
| Electricity, Denmark (kWh) | kWh/DU | 0,00 |  |  |  |
| Waste, packaging, pallet, EUR wooden pallet, reusable, to average treatment (kg) | kg | 0,02 |  |  |  |
| Waste, packaging, paper bag, to average treatment (kg) | kg | 0,01 |  |  |  |
| Waste, packaging, plastic (LDPE), to average treatment (kg) | kg | 0,06 |  |  |  |
| Water, tap water (L) | kg/DU | 0,18 |  |  |  |
| De-construction demolition (C1) | Unit | Value |  |  |  |
| Demolition of building per kg of cement-based product (kg) | kg/DU | 1,00 |  |  |  |

| Transport to waste processing (C2) | Capacity utilisation (incl. return) \% | Distance (km) | Fuel/Energy Consumption | Unit | Value (Liter/tonne) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Truck, 16-32 tonnes, EURO 5 (km) | 36,7\% | 30 | 0,044 | 1/tkm | 1,32 |
| Waste processing (C3) | Unit | Value |  |  |  |
| Waste treatment of cement-based product after demolition (kg) | kg | 0,90 |  |  |  |
| Disposal (C4) | Unit | Value |  |  |  |
| Disposal of cement-based product in landfill (kg | kg | 0,10 |  |  |  |
| Benefits and loads beyond the system boundaries (D) | Unit | Value |  |  |  |
| Substitution of primary aggregates with crushed recycled cement-based products (kg | kg | 0,90 |  |  |  |

## LCA: Results

The LCA results are presented below for the declared unit defined on page 2 of the EPD document.
Environmental impact

*INA Indicator Not Assessed

1. The results of this environmental impact indicator shall be used with care as the uncertainties on these results are high or as there is limited experienced with the indicator
2. This impact category deals mainly with the eventual impact of low dose ionizing radiation on human health of the nuclear fuel cycle. It does not consider effects due to possible nuclear accidents, occupational exposure nor due to radioactive waste disposal in underground facilities. Potential ionizing radiation from the soil, from radon and from some construction materials is also not measured by this indicator.

| Additional environmental impact indicators required in NPCR Part A for construction products |
| :--- |
| Indicator |
| GWPIOBC |
| Unit |
| $\mathrm{kg} \mathrm{CO}_{2}-\mathrm{eq}$ |

GWP-IOBC: Global warming potential calculated according to the principle of instantaneous oxidation. In order to increase the transparency of biogenic carbon contribution to climate impact, the indicator GWP-IOBC is required as it declares climate impacts calculated according to the principle of instantaneous oxidation. GWP-IOBC is also referred to as GWP-GHG in context to Swedish public procurement legislation.

## Bibliography

ISO 14025:2010 Environmental labels and declarations - Type III environmental declarations - Principles and procedures.
ISO 14044:2006 Environmental management - Life cycle assessment - Requirements and guidelines.
EN 15804:2012 + A2:2019 Environmental product declaration - Core rules for the product category of construction products.
ISO 21930:2017 Sustainability in buildings and civil engineering works - Core rules for environmental product declarations of construction products.

[^0]:    GWP-total = Global Warming Potential total; GWP-fossil = Global Warming Potential fossil fuels; GWP-biogenic = Global Warming Potential biogenic; GWP-luluc = Global Warming Potential land use and land use change; ODP = Depletion potential of the stratospheric ozone layer; AP = Acidification potential, Accumulated Exceedance; EP-freshwater = Eutrophication potential, fraction of nutrients reaching freshwater end compartment: EP-marine = Eutrophication potential, fraction of nutrients reaching marine end compartment; EP-terrestrial = Eutrophication potential, Accumulated Exceedance; POCP = Formation potential of tropospheric ozone; ADP-minerals\&metals = Abiotic depletion potential for non-fossil resources; ADP-fossil = Abiotic depletion for fossil resources potential; WDP = Water (user) deprivation potential, deprivation-weighted water consumption
    "Reading example: 9,0 E-03 $=9,0 * 10-3=0,009$ "
    *INA Indicator Not Assessed

    1. The results of this environmental impact indicator shall be used with care as the uncertainties on these results are high or as there is limited experienced with the indicator
