To whom it might concern

EPD-Norway and senior/disability aid technology

EPD-Norway hereby confirms that the EPD Program approves the use of NPCR 026 PCR - Part B for Furniture version 2.0 as applicable PCR for senior/disability aid technology. Verifiers will be notified accordingly. The use of NPCR 026 is a temporary solution which should be considered after a trial period of one year where either an extension or the development of a separate PCR for aid technology should be initiated.

EPD-Norway is a global EPD Program Operator.

EPD-Norway is co-founder and member of ECO Platform and an approved Established EPD-Program Operator.
